Journal of the Indian Chemical Society

Vol. 81, 2004

Subject Index

Abscisic acid

Synthesis and plant growth retardant activity of quaternary salts of ammonia from cinnamic acids, 883

Acacia arabica

Chemical constituents of the stems of *Acacia arabica* (Lamk.), 436

Acanthus ilicifolius

Proof-of-presence of unusually naturally occurring homologous series of fifteen saturated odd and even fatty acids in *Acanthus ilicifolius* L. (Acanthaceae), 696

Acetone

Effect of salt and solvents of the BZ reaction system containing tartaric acid and acetone as mixed organic substrate, 687

Acetonitrile-water

Base catalysed addition of thiophenol to β-nitrostyrene in aqueous acetonitrile – A kinetic study, 1157

Acetoxylmethylbenzothiazoline

A study on catalytic oxidative ring expansion and structural changes in 2-acetonyl-2-methyl benzothiazoline involving some metal ions, 236

Acetylmethylbenzothiazine

A study on catalytic oxidative ring expansion and structural changes in 2-acetonyl-2-methyl benzothiazoline involving some metal ions, 236

Acidic and baric media

Kinetics and mechanism of the osmium(VIII)-catalysed autoxidation of aqueous sulfur dioxide in acidic and alkaline media, 1083

Acoustical properties

Acoustical studies of some derivatives of ethylbenzene-1,3-diol in dimethylformamide solution at 308.15 K, 570

Acrylic hydrosol

Effect of blend of the hydrosol and latex on the property of waterborne aminoacrylic coatings, 313

Acrylic latex

Effect of blend of the hydrosol and latex on the property of waterborne aminoacrylic coatings, 313

Activated alumina

Adsorption dynamics and the effect of temperature of fluoride at alumina-solution interface, 461

Activated carbon

Activated carbons prepared from oil palm shells : application for column separation of heavy metals, 946

Active silica

Development of zirconia porcelain in presence of active silica and its characterization, 531

Acyl sucrose

New pairs of acyl sucroses from *Petunia nyctaginiflora* Juss, 495

Acylation

Acylation of aromatic compounds with isocyanates catalyzed by ytterbium(III) triflate : environmentally friendly, 885

Additive

Synthesis and characterization of co-precipitated magnesium-aluminium hydroxides hydrogel containing minor phosphate additive, 137

Adiabatic compressibility

Interaction studies in multicomponent liquid mixtures of hexadecane + 1-heptanol with dimethylformamide and tetrahydrofuran, 227

Apparent molar volumes and adiabatic compressibilities of L-glycine in aqueous solutions of $(CH_3)_4NI$, NaBr and NaI at 298.15 K, 1019

Adsorption

Effect of sewage sludge on carbamate pesticides adsorption in soils of Aligarh district, 41

Adsorption of anionic dyes on aluminium treated corn cobs powder, 474

A study of the removal of dyes by Goda sand, 484

Spectrophotometric study of adsorption of bromo thymol blue on charcoal and phosphates of Fe^{III}, Al^{III}, Cr^{III} and Zn^{II}, 573

Adsorption dynamics

Adsorption dynamics and the effect of temperature of fluoride at alumina-solution interface, 461

Agricultural systems

Arsenic chemistry in groundwater in the Bengal Delta Plain : Implications in agricultural system, 1063

Agronomy

Sedimentation studies of Kangsabati reservoir and some physico-chemical investigations of reservoir water and sediments, 318

Aldehydes

Voltammetric studies of furfural and its trace determination, 406

Aleuritic acid

Studies on desulphurisation of epithio derivatives of isomeric aleuritic acid and their corresponding dihydroxy dioic acids, 261

Aliphatics

Chemical components of *Pongamia pinnata* L., 891

Alizarin red S

Synthesis and application of Alizarin red S bonded polyurethane foam for separation and preconcentration of trace amounts of some metal ions in wastewater, 395

Alkali metal halides

Densities and viscosities of ternary systems of maltose, alkali metal halides and water from 293.15 to 313.15 K, 561

Alkaline periodate

Kinetics and mechanism of oxidation of 2-hydroxynaphthaldehyde by alkaline periodate, 111

Alkoxyethanol

Excess molar volumes and viscosities of binary liquid mixtures of 1-propanol + ethylene glycol monomethyl ether, + diethylene glycol monomethyl ether, + triethylene glycol monomethyl ether at (298.15, 308.15 and 318.15) K, 375

Alkylene dithiophosphates

First approach towards some novel macrocyclic complexes having mixed ligands : synthesis, characterization, catalytic and antimicrobial aspects of some nickel(II) macrocyclic complexes having tetraoxotetrathiotetraaza ligands in 24-28 membered rings, 1073

Allethrin

Electrochemical investigations and analysis of allethrin in formulations and in household dust, 613

Alloys

Adsorptive stripping voltammetric determination of cobalt in environmental samples using 2,2′-bipyridine, 180

Excess thermodynamic parameters for the Pb-Sn alloy at various compositions, 962

Allylation

Active metallic indium mediated carbon-carbon bond formation in aqueous media : Barbier-type allylation of aldehydes, 160

Aluminium

Corrosion of aluminium, zinc and mild-steel in an industrial atmosphere, 680

Extraction chromatographic studies of aluminium(III) with *n*-capric acid, 898

Aluminium titanate

Effect of ZrO_2 additive in reaction sintering of bauxite and titania, 528

Role of MgO additive in reaction sintering of bauxite and titania, 988

Ambient temperature

Some synthetic applications of nicket boride at ambient temperature, 733

Amidothiophosphates

Synthetic and antifungal studies of some novel alkylidenamidothiophosphoric esters, 338

Amino acids

Interaction of metronidazole with amino acids and their thermodynamics, 22

Studies on formation constants of some transition metal complexes containing folic acid as a primary ligand and some amino acids as a secondary ligands, 65

Partial molar volumes and viscosities of some amino acids in aqueous electrolyte and non-electrolyte solutions, 126

Solution studies on ternary complex formation of bivalent metal ions with cephalexine and amino acids, β-alanine and cysteine, 239

Synthesis and pharmacological evaluation of naproxen and ibuprofen derivatives, 778

Usual and unusual reactions of platinum complexes, 1141

Aminoacetophenone isonicotinyl hydrazone

Direct spectrophotometric determination of gold(III) using 2-aminoacetophenone isonicotinoyl hydrazone (2-AAINH), 525

Aminopolycarboxylate

Complex formation equilibria of Fe^{III} with boric acid in presence of some aminopolycarboxylic acids, 282

Aminoquinoline

Synthesis and analytical application of a new chelating resin containing 8-aminoquinoline group, 50

Aminothiazole

Organoiodine(III) mediated one-pot synthesis of *N*-substituted 2-aminothiazoles, 786

Ammonium

Ultrasonic, volumetric and viscometric studies of ammonium ceric nitrate in aqueous solution at different temperatures, 246

Ammonium meta vanadate

Assay of some ophthalmic drugs with ammonium meta vanadate reagent, 511

Amperometric titration

Trace determination of nickel and cadmium(II) amperometrically using 4-*p*-tolyl thiosemicarbazide, 611

Analysis

Analysis of palladium(II) in micro amounts by a kinetic method, 893

Anionic dyes

Adsorption of anionic dyes on aluminium treated corn cobs powder, 474

Annonaceae

Chemical constituents of *Polyalthia suberosa* Thw., 71

ANS reaction

Effect of nucleophile on the kinetics of the reactions of *O*-(2′,4′-dinitrophenyl)-4-phenyl-3-buten-2-one oxime in acetonitrile, 38

Anthelmintic

Synthesis of some new 2-mercaptobenzothiazolyl-2-oxoazetidines as antimicrobial and anthelmintic agents, 342

Antibacterial

Synthesis and biological screening of new 2-azetidinones and 4-thiazolidinones, 783

Antibacterial activity

Synthetic, spectral, thermal and antibacterial studies on copper(II) and zinc(II) complexes using NNO donor Schiff bases, 13

Synthesis of some plumbagin derivatives and their antibacterial activity, 509

Synthesis, catalytic and antibacterial activity of ruthenium complexes of 2,2′-dithiobis[*N*-(2-hydroxynaphth-3-yl)benzamides], 547

Synthesis, antitubercular and antimicrobial activity of 6-carbethoxy-5-aryl-3-[*p*-(3′-chloro-2′-benzo[*b*]thiophenoylamino)phenyl]-2-cyclohexenones, 694

Synthesis and antimicrobial activity of new linerarly fused 6-substituted-3,8-diacetyl-4,7-dimethyl-2*H*-pyrano[6,5-*f*]indoles, their chemoselective bromination and synthesis of 3-thiazolylpyranoindoles, 865

Multibeneficial natural material – Dye from heartwood of *Artocarpus heterophyllus* Lamk., 1097

Antibiotic

Application of pyridinium chlorochromate (PCC) for the determination of some importance antibiotics, 430

Antimicrobial

Synthesis and characterization of titanium-naphthoquinolates and their [4+2]-cycloadducts, 230

Synthesis of some new 2-mercaptobenzothiazolyl-2-oxoazetidines as antimicrobial and anthelmintic agents, 342

Antimicrobial activity

Synthesis and antimicrobial activity of bis(imido) Schiff bases derived from thiosemicarbazide with some 2-hydroxyaldehydes and metal complexes, 7

Synthesis, characterization and antimicrobial activity of ruthenium(III), rhodium(III), palladium(II) and platinum(II) complexes with bis(hydroxyisonitrosobenzoylacetone)thiocarbohydrazone, 683

Synthesis, antitubercular and antimicrobial activity of 6-carbethoxy-5-aryl-3-[*p*-(3′-chloro-2′-benzo[*b*]thiophenoylamino)phenyl]-2-cyclohexenones, 694

Synthesis of novel benzo-1,2,5-thiadiazines, their antimicrobial activity and isomerization into benzo-1,2,4-triazines, 775

Synthesis and antimicrobial activity of some new 2-methyl-5-nitroimidazole derivatives, 781

Antimicrobial studies

Synthesis and antimicrobial studies of Co^{II}, Ni^{II} and Cu^{II} complexes with Schiff bases, 324

Anti-tumour drug

Azo-oxime-carboxylates of bivalent platinum, 327

Apparent molar volumes

Apparent molar volumes and adiabatic compressibilities of L-glycine in aqueous solutions of $(CH_3)_4NI$, NaBr and NaI at 298.15 K, 1019

Aqueous-organic

Interaction between DL-threonine and ninhydrin in aqueous, aqueous-organic and micellar media, 1111

Arginine

Micellar effect on protonation equilibria of L-arginine and L-histidine, 384

Arnebia nobilis

Isolation of the natural colorant from the roots of *Arnebia nobilis* and its use as a new neutralization indicator, 717

Aromatic hydrocarbon

Polarizability of Buckminsterfullerenes and some aromatic hydrocarbons, 31

Arsenic

Arsenic chemistry in groundwater in the Bengal Delta Plain : Implications in agricultural system, 1063

Artocarpus heterophyllus

Multibeneficial natural material – Dye from heartwood of *Artocarpus heterophyllus* Lamk., 1097

Aryl mercaptopropionic acid

Nickel chloride catalyzed arylation of 3-mercaptopropionic acid : a facile one step route to 3-aryl mercaptopropionic acids from unactivated aryl halides and arenes, 515

Arylazo-bis-acetoxime

Spectrophotometric determination of cobalt(II) using some arylazo-bis-acetoximes, 896

Ascorbic acid

Role of reductant and photosensitizer in solar energy conversion and storage : ascorbic acid-eiosin system, 576

Athyrium solenopteris

Flavonoid glycosides of *Athyrium solenopteris* (Kunze) T. Moore of Palni Hills of South India, 77

Atmospheric corrosion

Corrosion of aluminium, zinc and mild-steel in an industrial atmosphere, 680

Atomic absorption spectrophotometer

Atomic absorption spectrophotometry determination of Pb, Cd, Cu, Mn, Cr, Ni and Fe levels in human hair. Influence of age, hair colour and smoking habit, 349

A simple volumetric method of mancozeb residues analysis in edible plants, 616

Autoexhaust

Spectrophotometric determination of nitrogen dioxide in the environment, 522

Autoxidation

Kinetics and mechanism of the osmium(VIII)-catalysed autoxidation of aqueous sulfur dioxide in acidic and alkaline media, 1083

Azetidinones

Synthesis and biological screening of new 2-azetidinones and 4-thiazolidinones, 783

Azide

Synthesis and structure of some cobalt(III) complexes wtih azide, dimethylglyoxime and heterocyclic nitrogen donor ligands, 420

Azodye ligands

Polymetallic complexes. Part-LXXXIII. Dimeric complexes of Co^{II}, Ni^{II}, Cu^{II}, Zn^{II}, Cd^{II} and Hg^{II} with tetradentate and hexadentate azodya ligands, 954

Azomacrocyclic ligands

Synthesis and spectral studies of transition metal complexes with 2,16-dimethyl-3,6,9,12,15,21-hexaazabicyclo[15.3.1]henicosa-1(21),2,15,17,19-pentaene, 833

Azo-oxime-carboxylates

Azo-oxime-carboxylates of bivalent platinum, 327

Basic media

Synthesis and characterization of $ZnAl_2O_4$ precursor in relation to different basic media, 674

Bauxite

Effect of ZrO_2 additive in reaction sintering of bauxite and titania, 528

Role of MgO additive in reaction sintering of bauxite and titania, 988

Beer's law

A study on the colour reaction of molybdenum(V) with 6-chloro-3-hydroxy-2-(2′-theinyl)-4*H*-chromen-4-one and its applications, 177

Bengal Delta Plain

Arsenic chemistry in groundwater in the Bengal Delta Plain : Implications in agricultural system, 1063

Benzene

Thermodynamic and transport behavior of non-aqueous binary mixtures of benzene with carbontetrachloride and chloroform at different temperatures, 330

Benzimidazole

Aminomethylation reactions of nitrogen and sulfur five membered heterocyclic compounds, 627

Benzodiazepine

A versatile approach for the synthesis of 1-methyl-4*H*[1,2,4]triazolo[4,3-*a*][1,4]benzodiazepine N^5-oxide, 163

A novel approach for the synthesis of 5-methoxycarbonyl-1,3-dihydro-2*H*-1,4-benzodiazepin-2-one-N^4-oxides from *N*-chloroacetylisatins, 254

Benzophenone

Study of a reaction between 1,3-dinitrobenzene and acetophenone in presence of hydroxide ion, 1093

Benzopyran

Biginelli reaction on 4-oxo-4*H*-1-benzopyran-3-carboxaldehyde – a search for reaction pathway, 132

Benzopyranooxazoleone

Studies on reaction hydroxycoumarin compounds with formamide, 488

Benzothiadiazines

Synthesis of novel benzo-1,2,5-thiadiazines, their antimicrobial activity and isomerization into benzo-1,2,4-triazines, 775

Benzothiazines

Synthesis of novel benzo-1,2,5-thiadiazines, their antimicrobial activity and isomerization into benzo-1,2,4-triazines, 775

Benzothiopyranooxazoleone

Studies on reaction of hydroxycoumarin compounds with formamide, 488

Benzoxazolinones

Aminomethylation reactions of nitrogen and sulfur five membered heterocyclic compounds, 627

Benzyl alcohols

Correlation analysis of reactivity in the oxidation of substituted benzyl alcohols by quinolinium bromochromate, 467

Benzylamines

Correlation analysis of reactivity in the oxidation of substituted benzylamines by pyridinium hydrobromide perbromide, 935

Benzyldihydropyridineaminodichlorophosphines

Some new 1-benzyl-1,2-dihydro-2-pyridylidenamino, dichlorophosphine, 602

Benzylidenemalononitrile

Chromatographic analysis of benzylidenemalononitrile analogues of 2-chlorobenzylidenemalononitrile, 874

Bidentate heterocyclic ligand

Complex compounds of ions with d^{6-10} electronic configuration with bidentate heterocyclic ligands (N,S), 150

Biginelli reaction

Biginelli reaction of 4-oxo-4*H*-1-benzopyran-3-carboxaldehyde–a search for reaction pathway,132

Biflavonoids

Novel biflavonoids from the leaves of *Leucaena diversifolia* and *Albizia procera* and their protein binding efficiency, 392

Binary liquid mixtures

Viscometric studies of molecular interactions in binary liquid mixtures of nitromethane with some polar and non-polar solvents at 298.15 K, 850

Binary mixtures

Excess molar volumes and viscosities of binary liquid mixtures of 1-propanol + ethylene glycol monomethyl ether, + diethylene glycol monomethyl ether, + triethylene glycol monomethyl ether at (298.15, 308.15 and 318.15) K, 375

Excess molar volumes, viscosity deviations and isentropic compressibility changes in binary mixtures of *N,N*-dimethylacetamide with 2-methoxyethanol and water in the temperature range 298.15 to 318.15 K, 1045

Bioactivity

Synthesis and bioactivity of ternary mixed ligand complexes of copper(II) and zinc(II) with substituted pyrimidine, 501

Biocatalyst

Green chemical pathways : a need of the day, 1127

Biogenetic

Proof-of-presence of unusually naturally occurring homologous series of fifteen saturated odd and even fatty acids in *Acanthus ilicifolius* L. (Acanthaceae), 696

Biological activity

Synthesis, spectroscopic and biological characterization of the Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with a new macrocyclic tetradentate [N_4] ligand, 739

Syntheses, characterization and biological activities of two carbamate pesticides, 968

Synthesis and biological activities of some 2-(substituted-phenyl)-2-methyl-4-(1,2,4-triazole-1-yl)-methane-1,3-dioxolane derivatives, 974

Biological investigation

Polymethylene bis(4-dimethylaminopyridinium bromide) : synthesis, electrochemical and biological investigation, 978

Biological properties

Spectral and biological properties of unsymmetrical imine complexes of dioxomolybdenum(VI) with sulfadrug azomethines and thiosemicarbazone, 454

Biological samples

Synthesis and analytical application of a new chelating resin containing 8-aminoquinoline group, 50

Biological screening

Synthesis and biological screening of new 2-azetidinones and 4-thiazolidinones, 783

Biomolecules

Factors responsible for intrinsic radioprotection, 303

Biosorption

Some trace elements enhance biosorption of lead by *Rhizopus arrhizus*, 410

Biphenyl

Photophysical behaviour of 1,1′-binaphthyl-2,2′-diol in different solvents and at various pH, 660

Bipyridine

Adsorptive stripping voltammetric determination of cobalt in environmental samples using 2,2′-bipyridine, 180

Ligand dependent metal-metal interaction in mixed-ligand oxovanadium(IV) complexes with N,O donor ligands, 449

2,2′-Bipyridine

Solvent effects on the charge transfer complexes between *p*-chloranil and 2,2′-bipyridine and 1,10-phenanthroline, 1051

Bis-dimethylaminopyridine compounds

Polymethylene bis(4-dimethylaminopyridinium bromide) : synthesis, electrochemical and biological investigation, 978

Bivalent metal ion complexes

Polymetallic complexes. Part-LXXXIII. Dimeric complexes of Co^{II}, Ni^{II}, Cu^{II}, Zn^{II}, Cd^{II} and Hg^{II} with tetradentate and hexadenatate azodye ligands, 954

Bleaching

Use of ZnO as a photocatalyst in photocatalytic bleaching of Rhodamine-B, 335

Blend

Effect of blend of the hydrosol and latex on the property of waterborne aminoacrylic coatings, 313

Bond energy

Factors responsible for intrinsic radioprotection, 303

Borananedione

A convenient synthesis of some new 2-oxazolidone derivatives, 249

Borate

Complex formation equilibria of Fe^{III} with boric acid in presence of some aminopolycarboxylic acids, 282

Bromate

Highly selective catalytic-spectrophotometric determination of vanadium(IV) by using calmagite-bromate redox reaction, 762

Bromate driven oscillators

An optically oscillating ephemeral intermediate in uncatalyzed bromate driven osillators, 959

Bromination

Synthesis of substituted pyrrolo[1,2-*a*]pyridines, 344

Bromothymol blue

Spectrohotometric study of adsorption of bromothymol blue on charcoal and phosphates of Fe^{III}, Al^{III}, Cr^{III} and Zn^{II}, 573

BZ reaction

Effect of temperature on the BZ reaction system containing mixed organic substrate in a CSTR, 427

Effect of salt and solvents of the BZ reaction system containing tartaric acid and acetone as mixed organic substrate, 687

Cadmium

Trace determination of nickel and cadmium(II) amperometrically using 4-*p*-tolyl thiosemicarbazide, 611

Calmagite

Highly selective catalytic-spectrophotometric determination of vanadium(IV) by using calmagite-bromate redox reaction, 762

Calvin-Bjerrum technique

Polarographic behaviour of 3-(1-phenyl)-1-(2′-hydroxynaphthyl)-2-propen-1-one and thermodynamic parameters of complexes of bivalent transition metal ions, 503

Capric acid

Extraction chromatographic studies of aluminium(III) with *n*-capric acid, 898

Carbamate pesticides

Effect of sewage sludge on carbamate pesticides adsorption in soils of Aligarh district, 41

Syntheses, characterization and biological activities of two carbamate pesticides, 968

Carboxylic acid

Simultaneous HPLC determination of vitamin C and carboxylic acids, 721

Catalysis

Effect of nucleophile on the kinetics of the reactions of *O*-(2′,4′-dinitrophenyl)-4-phenyl-3-buten-2-one oxime in acetonitrile, 38

Catalytic

Highly selective catalytic-spectrophotometric determination of vanadium(IV) by using calmagite-bromate redox reaction, 762

Catalytic activity

Synthesis, catalytic and antibacterial activity of ruthenium complexes of 2,2′-dithiobis[*N*-(2-hydroxynaphth-3-yl)benzamides], 547

Catechol

Novel features in the oxidation of dihydroxy benzenes by 2,6-dichloroquinone-4-chloro-imide in acetic acid and sodium acetate buffer medium, 242

Catenaglutamatoaquacopper monohydrate

Synthesis, crystal structure and thermal studies of catena-(L-glutamato)-aquacopper(II) monohydrate, 543

Cephalexin

Solution studies on ternary complex formation of bivalent metal ions with cephalexine and amino acids, β-alanine and cysteine, 239

Ceric ammonium nitrate

Conversion of indoline-2-thione and oxindole to isatin–some new observations, 169

Ceric nitrate

Ultrasonic, volumetric and viscometric studies of ammonium ceric nitrate in aqueous solution at different temperatures, 246

Cerium

3-Hydroxy-2-(2′-thienyl)-4*H*-chromen-4-one as an analytical reagent for the trace determination of cerium, 87

Cesium tetraphenyl borate

A new heterogeneous precipitate based ion selective electrode for cesium(I) ion, 174

Characterization

Synthesis and characterization of SAPO-15 molecular sieve using hexamethylenetetramine template, 198

Charge-transfer complex

Charge transfer complexes of metronidazole and tinidazole with quinones and their thermodynamics, 221

Solvent effects on the charge transfer complexes between *p*-chloranil and 2,2′-bipyridine and 1,10-phenanthroline, 1051

Chelating ion exchange resin

Lead(II) selective sensor based on heterogeneous membranes of chelating inorganic ion exchange resin, 666

Chelating resin

Synthesis and analytical application of a new chelating resin containing 8-aminoquinoline group, 50

Functionalized chelating resins for selective sorption of metal ions : an overview, 95

Chemical constituents

Chemical constituents of the stems of *Acacia arabica* (Lamk.), 436

Chemical conversion

Conversion of lapachol to array of furano and pyrano-naphthoquinone congeners, 1039

Chemical evaluation

Chemical evaluation of contaminated soils for fluoride phosphate and nitrate contents, 901

Chemical shift

Synthesis of pyrazole and pyrazole amidocobaloximes, 58

Chemistry in India

Chemistry in India : A short historical perspective and foundation of the Indian Chemical Society, 1011

Chiral center

Studies on some dipolar cycloaddition reactions, 187

Chloranil

Charge transfer complexes of metronidazole and tinidazole with quinones and their thermodynamics, 221

***p*-Chloranil**

Solvent effects on the charge transfer complexes between *p*-chloranil and 2,2′-bipyridine and 1,10-phenanthroline, 1051

Chloroform

Thermodynamic and transport behavior of non-aqueous binary mixtures of benzene with carbontetrachloride and chloroform at different temperatures, 330

Chloroformylhydroxyetheneylquinoline

Synthesis of 12-ethoxy-3-oxo-4-phenylquino[3,2-*c*][1,3]diazocines via Vilsmeier-Haack reaction, 598

Chromatographic analysis

Chromatographic analysis of benzylidenemalononitrile analogues of 2-chlorobenzylidenemalononitrile, 874

Chromatography

Evaluation of amino acids for their radioprotective efficacy by analytical techniques, 217

Extraction chromatographic studies of aluminium(III) with *n*-capric acid, 898

Chromium

Kinetics of the effect of some bi-dentate ligands on the oxidation of lactic acid by chromium(VI), 556

Chromone

A study on the colour reaction of molybdenum(v) with 6-chloro-3-hydroxy-2-(2′-theinyl)-4*H*-chromen-4-one and its applications, 177

Behaviour of *o*-hydroxyacetophenones towards action of $POCl_3$/DMF (Vilsmeier reagent) in presence of $BF_3.Et_2O$: a novel observation in the synthesis of chromones, 888

Cinnamic acid

Synthesis and plant growth retardant activity of quaternary salts of ammonia from cinnamic acids, 883

Claisen condensation

Synthesis, antitubercular and antimicrobial activity of 6-carbethoxy-5-aryl-3-[*p*-(3′-chloro-2′-benzo[*b*]thiophenoylamino)phenyl]-2-cyclohexenones, 694

Cleavage

Cleavage of Se-Se bond by Sm/cat.$CoCl_2$ system : a facile and novel method for the preparation of selenoesters, 492

α-Cleavage

α-Cleavage during the oxidation of benzazolyl-4-coumarinomethyl sulphides, 981

Cobaloximes

Synthesis of pyrazole and pyrazole amidocobaloximes, 58

Synthesis, isolation and characterization of alkyl(aquo) and alkyl(ligand) cobaloximes, 837

Cobalt

Adsorptive stripping voltammetric determination of cobalt in environemntal samples using 2,2′-bipyridine, 180

Photoelectrochemical and corrosion studies on electrodeposited nickel and cobalt containing ZnSe thin films, 299

Synthesis and antimicrobial studies of Co^{II}, Ni^{II} and Cu^{II} complexes with Schiff bases, 324

Synthesis and structurs of some cobalt (III) complexes with azide, dimethylglyoxime and heterocyclic nitrogen donor ligands, 420

Spectrophotometric determination of cobalt(II) using some arylazo-bis-acetoximes, 896

Cobalt chloride hydrates

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Co series). Part-III. Dehydration and decomposition of $CoCl_2$ hydrates, 842

Colchicine

Spectrophotometric determination of colchicine using iron(III) chloride and 1,10-phenanthroline, 171

Colchicum autumnale

Spectrophotometric determination of colchicine using iron(III) chloride and 1,10-phenanthroline, 171

Column separation

Activated carbons prepared from oil palm shells : application for column separation of heavy metals, 946

Complexometric titration

A simple volumetric method of mancozeb residues analysis in edible plants, 616

Analytical characterisation of soil samples polluted by industrial effluents for exchangeable cations, 797

Congeners

Conversion of lapachol to array of furano and pyranonaphthoquinone congeners, 1039

Contaminated soils

Chemical evaluation of contaminated soils of fluoride phosphate and nitrate contents, 901

Continuously stirred tank reactor

Effect of temperature on the BZ reaction system containing mixed organic substrate in a CSTR, 427

Copper

Synthetic, spectral, thermal and antibacterial studies on copper(II) and zinc(II) complexes using NNO donor Schiff bases, 13

Synthesis and crystal structure of bis(2-aminopyridinium)tetrachlorocuprate(II), 18

Copper(II)-mediated regeneration of carbonyls from oximes and semicarbazones under solvent-free microwere irradiated conditions, 79

Synthesis of some Schiff base complexes of nickel(II) and copper(II) derived from *p*-dimethylaminobenzaldehyde, 147

EPR and electronic spectral studies on copper(II) complexes of some N-O donor ligands, 203

Copper(II)-glutathinone (reduced) interaction : assessment of copper-peptide environment by physicochemical and spectral methods in isolated system, 210

Cyclic voltammetric studies of some copper(II)-carboxylate complexes in aqueous medium, 214

Synthesis and antimicrobial studies of Co^{II}, Ni^{II} and Cu^{II} complexes with Schiff bases, 324

Synthesis and bioactivity of ternary mixed ligand complexes of copper(II) and zinc(II) with substituted pyrimidine, 501

Copper and zinc separation

Synthesis and analytical application of a new chelating resin containing 8-aminoquinoline group, 50

Coprecipitation

Synthesis and characterization of $ZnAl_2O_4$ precursor in relation to different basic media, 674

Correlation analysis

Correlation analysis of reactivity in the oxidation of substituted benzyl alcohols by quinolinium bromochromate, 467

Correlation analysis of reactivity in the oxidation of substituted benzylamines by pyridinium hydrobromide perbromide, 935

Corrosion

Photoelectrochemical and corrosion studies on electrodeposited nickel and cobalt containing ZnSe thin films, 299

Inhibition of corrosion of mild steel with the exploitation of emeraldine base and some pretreatments, 770

Electrochemical formation and corrosion studies on zinc-nickel alloys, 1149

Coulometry

Cyclic voltammetric studies of some copper(II)-carboxylate complexes in aqueous medium, 214

Crystal structure

Synthesis, crystal structure and thermal studies of catena-(L-glutamato)-aqua copper(II) monohydrate, 543

CT complex

Study of a reaction between 1,3-dinitrobenzene and acetophenone in presence of hydroxide ion, 1093

CTAB

Interaction between DL-threonine and ninhydrin in aqueous-organic and micellar media, 1111

Cupric chloride

Conductance studies of cupric chloride in aqueous mannitol and aqueous dextrose, 881

Cyanopyrans

Synthesis of some new cyanopyrans and cyanopyridines and their biological activities, 157

Cyanopyridines

Dibenzylideneacetonedibromide

Wavelength dependent phototransformation of dibenzylideneacetonedibromide, 965

Dicopper helicate

An overlooked dicopper(I) helicate, 153

Dielectric constant

Effect of dielectric constant of medium on protonation equilibria of L-glutamine and succinic acid, 424

Diethylhexyl phosphoric acid

Extraction of Fe^{III}, Sb^{III} and Cd^{II} from hydrochloric acid solution with organic extractant in methylisobutyl ketone, 942

Differential pulse polarography

Electrochemical investigations and analysis of allethrin in formulations and in household dust, 613

Electrochemistry of dihydroxyflavones – a DPP study, 986

Diffusion

Solute diffusion in single germinating seed – experimental determination of diffusion coefficients of NaCl and $CaCl_2.2H_2O$ in PBW-373 wheat variety at 25° and 45°, 47

Diffusion coefficient

Polarographic behaviour of 3-(1-phenyl)-1-(2′-hydroxynaphthyl)-2-propen-1-one and thermodynamic parameters of complexes of bivalent transition metal ions, 503

Diffusion rate constant

Kinetics of liquid-solid ion exchange reactions of calcium/hydrogen ions on cation exchange resin in non-aqueous media, 457

Dihydroxy dioic acids

Studies on desulphurisation of epithio derivatives of isomeric aleuritic acid and their corresponding dihydroxy dioic acids, 261

Dihydroxybenzaldehyde isonicotinoyl hydrazone (DHBINH)

First order derivative spectrophotometry of simultaneous determination of Mo^{VI} and Ti^{IV} using 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone (DHBINH), 670

Dihydroxyflavone

Electrochemistry of dihydroxyflavones – a DPP study, 986

Diketonates

Syntheses and spectral studies of new bimetallic Sn^{IV} Al^{III}-μ-oxoisopropoxyacetate and -μ-oxoisopropoxide containing unsymmetrical tin and their β-diketonates, 639

Dimethylglyoxime

Synthesis and structure of some cobalt(III) complexes with azide, dimethlglyoxime and heterocyclic nitrogen donor ligands, 420

***N,N*-Dimethylacetamide**

Excess molar volumes, viscosity deviations and isentropic compressibility changes in binary mixtures of *N,N*-dimethylacetamide with 2-methoxyethanol and water in the temperature range 298.15 to 318.15 K, 1045

***m*-Dinitrobenzene**

Study of a reaction between 1,3-dinitrobenzene and acetophenone in presence of hydroxide ion, 1093

Diol

A convenient synthesis of some new 2-oxazolidone derivatives, 249

Dioxomolybdenum

Spectral and biological properites of unsymmetrical imine complexes of dioxomolybdenum(VI) with sulfadrug azomethines and thiosemicarbazone, 454

Diphenylmethyl propanol

Modern Friedel-Crafts chemistry. Part-26. A facile synthesis of *trans*-2-methyl-1-phenylindan via rearranged intramolecular cyclialkylation of 1,2-diphenyl-2-methyl-2-propanol under Friedel-Crafts conditions, 518

Dipolar cycloadditions

Recent advances in the 1,3-dipolar cycloaddition reactions of nitrones, 817

DMC

Green chemical pathways : a need of the day, 1127

DMS

Green chemical pathways : a need of the day, 1127

DNA

Usual and unusual reaction of platinum complexes, 1141

Dopamine

Fluorimetric determination of dopamine via its derivatization with 1,2-phenylenediamine, 868

Dose rate

Evaluation of amino acids for their radioprotective efficacy by analytical techniques, 217

Dyes

Electrochemical studies on patent blue VF : a triphenylmethane dye, 26

Chemical cleaning of reverse osmosis membranes fouled by dye bath effluent of a carpet manufacturing plant, 584

Eco-friendly

An efficient, microwave assisted solvent-free synthesis of polarized enamines, 791

Eiosin

Role of reductant and photosensitizer in solar conversion and storage : ascorbic acid-eiosin system, 576

Electrical conductivity

A novel soluble and conduting polyaniline, 606

Elecrochemical

Study of corrosion kinetics a new voltammetric approach, 371

Electrochemical behaviour

Electrochemistry of dihydroxyflavones – a DPP study, 986

Electron transfer reactions

Light induced electron transfer reactions : kinetics and mechanism of oxidation of hexacyanoferrate(II) by peroxodisulphate induced by irradiation of visible light in presence of tris(2,2′-bipyridine)ruthenium(II) ion photocatalyst in aqueous solutions, 1057

Electronic effects

Substitution effect on metal complexes of 2-hydroxybenzoic acid, 773

Electronic spectra

EPR and electronic spectral studies on copper(II) complexes of some N-O donor ligands, 203

Trivalent transition metal ion directed macrocycles, 287

Electrosynthesis

Electrosynthesis and electrochemical studies on polyaniline, 1167

Elemental analysis

Some new 1-benzyl-1,2-dihydro-2-pyridylidenamino, dichlorophosphine, 602

Emeraldine base

Inhibition of corrosion of mild steel with the exploitation of emeraldine base and some pretreatments, 770

Empirical approach

Polarizability of ferrocene derivatives using new empirical approach, 68

Emulsion liquid membrane

Extraction of L-glutamic acid emulsion liquid membrane, 264

EPR spectra

EPR and electronic spectral studies on copper(II) complexes of some N-O donor ligands, 203

Equilibrium parameters

Adsorption dynamics and the effect of temperature of fluoride at alumina-solution interface, 461

Ethylbenzenediol

Acoustical studies of some derivatives of ethylbenzene-1,3-diol in dimethylformamide solution at 308.15 K, 570

Excess molar properties

Excess molar volumes, viscosity deviations and isentropic compressibility changes in binary mixtures of *N*,*N*-dimethylacetamide with 2-methoxyethanol and water in the temperature range 298.15 to 318.15 K, 1045

Excess volume

Excess molar volumes and viscosities of binary liquid mixtures of 1-propanol + ethylene glycol monomethyl ether, + diethylene glycol monomethyl ether, + triethylene glycol monomethyl ether at (298.15, 308.15 K, 318.15) K, 375

Exchangeable cations

Analytical characterisation of soil samples polluted by industrial effluents for exchangeable cations, 797

Exothermic

Adsorption of anionic dyes on aluminium treated corn cobs powder, 474

External phase

Extraction of L-glutamic acid using emulsion liquid membrane, 264

Extraction

Extraction of L-glutamic acid using emulsion liquid membrane, 264

Extraction of Fe^{III}, Sb^{III} and Cd^{II} from hydrochloric acid solution with organic extractant in methylisobutyl ketone, 942

Extractive spectrophotometric determination

Extractive spectrophotometric determination of tungstem(VI) using 3-hydroxy-2-(2′-furyl)-4-oxo-4*H*-1-benzopyran as a complexing agent, 713

Ferrocene

Polarizability of ferrocene derivatives using new empirical approach, 68

First order derivative

First order derivative spectrophotometry for simultaneous determination of Mo^{VI} and Ti^{IV} using 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone (DHBINH), 670

Flame photometry

Analytical characterisation of soil samples polluted by industrial effluents for exchangeable cations, 797

Flavones

Photophysical behaviour of 1,1′-binaphthyl-2,2′-diol in different solvents and at various pH, 660

Fluoride

Adsorption dynamics and the effect of temperature of fluoride at alumina-solution interface, 461

Flurimetric determination

Fluorimetric determination of dopamine via its derivatization with 1.2-phenylenediamine, 868

Food processing

Studies on hydrodynamics of annular circulating fluidised bed drier with millet ragi particles mixture, 54

Formamide

Studies on reaction of hydroxycoumarin compounds with formamide, 488

Formation constant

Studies on formation constants of some transition metal complexes containg folic acid as a primary ligand and some amino acids as a secondary ligands, 65

Electronic spectral studies and intra-molecular inter-ligand interaction in mixed ligand complexes of lanthanoids(III) involving histidine and some amino acids, 207

Formic acid

Kinetics and mechanism of the oxidation of formic and oxalic acids by benzyltrimethylammonium chlorobromate, 291

Formyl chromone

Biginelli reaction on 4-oxo-4*H*-1-benzopyran-3-carboxaldehyde – a search for reaction pathway, 132

Formylamino coumarin

Studies on reaction of hydroxycoumarin compounds with formamide, 488

Fouling

Chemical cleaning of reverse osmosis membranes fouled by dye bath effluent of a carpet manufacturing plant, 584

Freundlich adsroption isotherm

A study of the removal of dyes by Goda sand, 484

Freundlich isotherm

Spectrophotometric study of adsorption of bromo thymol blue on charcoal and phosphates of Fe^{III}, Al^{III}, Cr^{III} and Zn^{II}, 573

Frenndlich sorption isotherm

Adsorption of anionic dyes on aluminium treated corn cobs powder, 474

Friedel-Crafts reaction

Modern Friedel-Crafts chemistry. Part-26. A facile synthesis of *trans*-2-methyl-1-phenylindan via rearranged intramolecular cyclialkylation of 1,2-diphenyl-2-methyl-2-propanol under Friedel-Crafts conditions, 518

Fuel cell at rom temperature

Preparation of photosensitive WO_3 sol, its use in photocatalysis, photogalvanic cell and feasibility of fuel cell at room temperature, 1163

Fullerenes

Polarizability of Buckminsterfullerenes and some aromatic hydrocarbons, 31

Functionalised dichlorophosphine

Some new 1-benzyl-1,2-dihydro-2-pyridylidenamino, dichlorophosphine, 602

Fungitoxic activity

Synthetic and antifungal studies of some novel alkylidenamidothiophosphoric esters, 338

Furanonaphthoquinone

Conversion of lapachol to array of furano and pyranonaphthoquinone congeners, 1039

Furfural

Voltammetric studies of furfural and its trace determination, 406

Gas chromatography

A new complex combination of Bi^{III} utilized as a stationary phase in gas chromatography, 402

Chromatographic analysis of benzylidenemalononitrile analogues of 2-chlorobenzylidenemalononitrile, 874

Germinating seed

Solute diffusion in single germinating seed – experimental determination of diffusion coefficients of NaCl and $CaCl_2.2H_2O$ in PBW-373 wheat variety at 25° and 45°, 47

Goda sand

A study of the removal of dyes by Goda sand, 484

Gold

Direct spectrophotometric determination of gold(III) using 2-aminoacetophenone isonicotinoyl hydrazone (2-AAINH), 525

Glipizide

Simultaneous determination of Glipizide and Metformin hydrochloride in pharmaceutical preparation by HPLC, 84

Glucosylated compound

Synthesis of 3-tetra-*O*-benzoyl-β-D-glucopyranosylimino-4-phenyl-5-arylimino-1,2,4-dithiazolidines, 155

Glutathione

Copper(II)-glutathinone (reduced) interaction : assessment of copper-peptide environment by physicochemical and spectral methods in isolated system, 210

Glycine

Partial molar volumes and viscosities of some amino acids in aqueous electrolyte and non-electrolyte solution, 126

L-Glycine

Apparent molar volumes and adiabatic compressibilities of L-glycine in aqueous solutions of $(CH_3)_4NI$, NaBr and NaI at 298.15 K, 1019

Silver

Synthesis and application of Alizarin red S bonded polyurethane foam for separation and preconcentration of trace amounts of some metal ions in wastewater, 395

Sodium bromobenzenesulfonamide

Oxidation of L-tyrosine by sodium *N*-bromobenzenesulfonamide in alkaline medium : a kinetic and mechanistic study, 479

Soil

Effect of sewage sludge on carbamate pesticides adsorption in soils of Aligarh district, 41

Solanaceae

New pairs of acyl sucroses from *Petunia nyctaginiflora* Juss, 495

Solar energy conversion

Comparative studies in anionic, cationic and nonionic surfactant in photogalvanic cells from solar energy conversion and storage point of view : NTA-Azur B system, 592

Solid phase extraction

Functionalized chelating resins for selective sorption of metal ions : an overview, 95

Solubility

A novel soluble and conduting polyaniline, 606

Soluble polyaniline

A novel soluble and conduting polyaniline, 606

Solute-cosolute interactions

Apparent molar volumes and adiabatic compressibilities of L-glycine in aqueous solutions of $(CH_3)_4NI$, NaBr and NaI at 298.15 K, 1019

Solvatochromic shifts

Photophysical behaviour of 1,1′-binaphthyl-2,2′-diol in different solvents and at various pH, 660

Solvent effects

Solvent effects on the charge transfer complexes between *p*-chloranil and 2,2′-bipyridine and 1,10-phenanthroline, 1051

Solvent free synthesis

An efficient, microwave assisted solvent-free synthesis of polarized enamines, 791

Sonochemistry

Green chemical pathways : a need of the day, 1127

Spectral parameters

Trends in spectral parameters and nephelauxetic ratio values for some lanthanoid(III) tyrosine complexes. Part-III, 879

Spectral studies

Syntheses and spectral studies of new bimetalllic Sn^{IV} Al^{III}-μ-oxoisopropoxyacetate and -μ-oxoisopropoxide containing unsymmetrical tin and their β-diketonates, 639

Synthesis and spectral studies of transition metal complexes with 2,16-dimethyl-3,6,9,12,15,21-hexaazabicyclo[15.3.1]henicosa-1(21),2,15,17,19-pentaene, 833

Spectrofluorimetry

Fluorimetric determination of dopamine via its derivatization with 1,2-phenylenediamine, 868

Spectrophotometric determination

Synthesis and analytical application of 3-hydroxy-3-methyl-1-(4-sulphonamidophenyl)triazene in the spectrophotometric determination of copper(II), 438

Spectrophotometric determination of nitrogen dioxide in the environment, 522

Direct spectrophotometric determination of gold(III) using 2-aminoacetophenone isonicotinoyl hydrazone (2-AAINH), 525

Spectrophotometric determination of nickel(II) using 5-Br-PADAP and *N*-hydroxy-*N*,*N*′-diphenylbenzamidine, 709

Spectrophotometric determination of nickel(II) in aqueous medium using 1-phenyl-1,2-propanedione-2-oxime, 794

Analytical application of 3-hydroxy-3-*p*-tolyl-1-*m*-tolyltriazene in the spectrophotometric determination of molybdenum(VI), 799

Spectrophotometric determination of cobalt(II) using some arylazo-bis-acetoximes, 896

Spectrophotometric evidence

Kinetics and mechanism of the osmium(VIII)-catalysed autoxidation of aqueous sulfur dioxide in acidic and alkaline media, 1083

Spectrophotometry

N-(2-Phenyl)-2-thioquinaldinamide and its selective reaction with copper. Spectrophotometric determination of stepwise stability constant of 1 : 3 ionic chelate in aqueous ethanol, 361

First order derivative spectrophotometry for simultaneous determination of Mo^{VI} and Ti^{IV} using 2,4-dihydroxy benzaldehyde isonicotinoyl hydrazone (DHBINH), 670

Fluorimetric determination of dopamine via its derivatization with 1,2-phenylenediamine, 868

Chemical evaluation of contaminated soils for fluoride phosphate and nitrate contents, 901

Spectrophotometry study

Spectrophotometric study of adsorption of bromo thymol blue on charcoal and phosphates of Fe^{III}, Al^{III}, Cr^{III} and Zn^{II}, 573

Spectroscopic studies

Chemical constituents of *Polyalthia suberosa* Thw., 71

Spinel

Synthesis and characterization of co-precipitated magnesium-aluminium hydroxides hydrogel containing minor phosphate additive, 137

Heterobimetallic mixed oxide (HMMO) nanoparticles and their applications, 273

Synthesis and characterization of $ZnAl_2O_4$ precursor in relation to different basic media, 674

Stability constant

Complex formation equilibria of Fe^{III} with boric acid in presence of some aminopolycarboxylic acids, 282

N-(2-Phenyl)-2-thioquinaldinamide and its selective reaction with copper. Spectrophotometric determination of stepwise stability constant of 1 : 3 ionic chelate in aqueous ethanol, 361

Polarographic behaviour of 3-(1-phenyl)-1-(2′-hydroxynaphthyl)-2-propen-1-one and thermodynamic parameters of complexes of bivalent transition metal ions, 503

Substitution effect on metal complexes of 2-hydroxybenzoic acid, 773

Stationary phase

A new complex combination of Bi^{III} utilized as a stationary phase in gas chromatography, 402

Steels

Inhibition of corrosion of mild steel with the exploitation of emeraldine base and some pretreatments, 770

Steroidal enamine

Synthesis of steroidal enamine – pyrrolidine derivative, 972

Stripping phase

Extraction of L-glutamic acid using emulsion liquid membrane, 264

Substituted salicylanils

Kinetics and reaction mechanism of the metal ion catalysed hydrolysis of some substituted salicylanils, 1103

Succinic acid

Effect of dielectric constant of medium on protonation equilibria of L-glutamine and succinic acid, 424

Sulfadrug

Spectral and biological properties of unsymmetrical imine complexes of dioxomolybdenum(VI) with sulfadrug azomethines and thiosemicarbazone, 454

Sulfonamides

Synthesis of some pyrazole and pyrimidine derivatives of sulfonamides, 692

Surfactant

Comparative studies in anionic, cationic and nonionic surfactant in photogalvanic cells from solar energy conversion and storage point of view : NTA-Azur B system, 592

Synthesis

Synthesis and antimicrobial activity of bis(imido) Schiff bases derived from thiosemicarbazide with some 2-hydroxyaldehydes and metal complexes, 7

Synthesis and crystal structure of bis(2-aminopyridinium)tetrachlorocuprate(II), 18

Synthesis and analytical applicatioin of a new chelating resin containing 8-aminoquinoline group, 50

Synthesis and spectral invesitgations of the complex of $S_3N_3Cl_3$ with zinc(II), 61

Synthesis of some Schiff base complexes of nickel(II) and copper(II) derived from *p*-dimethylaminobenzaldehyde, 147

Complex compounds of ions with d^{6-10} electronic configuration with bidentate heterocyclic ligands (N, S), 150

Synthesis of 3-tetra-*O*-benzoyl-β-D-glucopyranosylimino-4-phenyl-5-arylimine-1,2,4-dithiazolidines, 155

Synthesis of some new cyanopyrans and cyanopyridines and their biological activities, 157

A versatile approach for the synthesis of 1-methyl-4*H*[1,2,4]triazole[4,3-*a*][1,4]benzodiazepine N^5-oxide, 163

Synthesis and characterization of SAPO-15 molecular sieve using hexamethylenetetramine template, 198

Copper(II)-glutathinone (reduced) interaction : assessment of copper-peptide environment by physicochemical and spectral methods in isolated system, 210

Synthesis and characteriazation of titaniumnaphthoquinolates and their [4+2]-cycloadducts, 230

Synthesis and hypoglycemic activities of 3-(phthalimidomethyl)-4-substituted-cinnamoyl salicylanilides, 258

Synthesis and antimicrobial studies of Co^{II}, Ni^{II} and Cu^{II} complexes with Schiff bases, 324

Synthesis of some new 2-mercaptobenzothiazolyl-2-oxoazetidines as antimicrobial and anthelmintic agents, 342

Synthesis of substituted pyrrolo[1,2-*a*]pyridines, 344

Synthesis of recyclable water-soluble polymeric chelators, 388

Syntheses and properties of organotin(IV) dialkyl phosphites, 417

Synthesis and structure of some cobalt(III) complexes with azide, dimethylglyoxime and heterocyclic nitrogen donor ligands, 420

Synthesis and analytical application of 3-hydroxy-3-methyl-1-(4-sulphonamidophenyl)triazene in the spectrophotometric determination of copper(II), 438

Synthesis and bioactivity of ternary mixed ligand complexes of copper(II) and zinc(II) with substituted pyrimidine, 501

Synthesis of some plumbagin derivatives and their antibacterial activity, 509

Modern Friedel-Crafts chemistry. Part-26. A facile synthesis of *trans*-2-methyl-1-phenylindan via rearranged intramolecular cyclialkylation of 1,2-diphenyl-2-methyl-2-propanol under Friedel-Crafts conditions, 518

Synthesis, crystal structure and thermal studies of catena-(L-glutamato)-aqua copper(II) monohydrate, 543

Synthesis, catalytic and antibacterial activity of ruthenium complexes of 2,2′-dithiobis[*N*-(2-hydroxynaphth-3-yl) benzamides], 547

Synthesis of mercury-, tin-, lead- and zinc(II) complexes with a tetradentate Schiff base 1,2-glyoxilidine-bis-2-aminoethylpyridine, 590

Synthesis of pinacols through electrochemical reduction of carbonyl compounds at platinum cathode in non-aqueous weakly acidic medium, 595

Syntheses and spectral studies of new bimetallic Sn^{IV} Al^{III}-μ-oxoisopropoxyacetate and -μ-oxoisopropoxide containing unsymmetrical tin and their β-diketonates, 639

Synthesis, characterization and antimicrobial activity of ruthenium(III), rhodium(III), palladium(II) and platinum(II) complexes with bis(hydroxyisonitrosobenzoylacetone)thiocarbohydrazone, 683

Synthesis of some pyrazole and pyrimidine derivatives of sulfonamides, 692

Synthesis, antitubercular and antimicrobial activity of 6-carbethoxy-5-aryl-3-[*p*-(3′-chloro-2′-benzo[*b*]thiophenoylamino)phenyl]-2-cyclohexenones, 694

Synthesis, spectroscopic and biological characterization of the Mn^{II}, Co^{II}, Ni^{II} and Cu^{II} complexes with a new macrocyclic tetradentate [N_4] ligand, 739

Synthesis of novel benzo-1,2,5-thiadiazines, their antimicrobial activity and isomerization into benzo-1,2,4-triazines, 775

Synthesis and biological screening of new 2-azetidinones and 4-thiazolidinones, 783

Synthesis and antimicrobial activity of some new 2-methyl-5-nitroimidazole derivatives, 781

Synthesis and spectral studies of transition metal complexes with 2,16-dimethyl-3,6,9,12,15,21-hexaazabicyclo[15.3.1]henicosa-1(21),2,15,17,19-pentaene, 833

Synthesis, isolation and characterization of alkyl(aquo) and alkyl(ligand) cobaloximes, 837

Synthesis and antimicrobial activity of new linearly fused 6-substituted-3,8-diacetyl-4,7-dimethyl-2*H*-pyranol[6,5-*f*]indoles, their chemoselective bromination and synthesis of 3-thiazolylpyranoindoles, 865

Behaviour of *o*-hydroxyacetophenones towards action of $POCl_3$/DMF (Vilsmeier reagent) in presence of $BF_3.Et_2O$: a novel observation in the synthesis of chromones, 888

Tafel plot

Photoelectrochemical and corrosion studies on electrodeposited nickel and cobalt containing ZnSe thin films, 299

Tafel studies

Electrochemical formation and corrosion studies on zinc-nickel alloys, 1149

Tartaric acid

Effect of salt and solvents of the BZ reaction system containing tartaric acid and acetone as mixed organic substrate, 687

Tectona grandis

New xanthone from the seeds of *Tectona grandis*, 167

Ternary complex

Solution studies on ternary complex formation of bivalent metal ions with cephalexine and amino acids, β-alanine and cysteine, 239

Ternary system

Densities and viscosities of ternary system of maltose, alkali metal halides and water from 293.15 to 313.15 K, 561

Thermal analysis

Synthetic, spectral, thermal and antibacterial studies on copper(II) and zinc(II) complexes using NNO donor Schiff bases, 13

Studies of some mixed valence polyoxomolybdates, 233

Studies on some homo- and bimetallic dinuclear transition metal complexes of [2,3,6,9,12,13-hexaaza-4,511-tetraphenyl-1,14-di-(2′-hydroxyphenyl)-tetradeca-1,3,5,9,11,13-hexaenel (HTHT), 552

Thermal dehydration

Kinetics of thermal dehydration and decomposition of hydrated chlorides of 3d transition metals (Mn-Cu series). Part-II. Dehydration of $FeCl_2.4H_2O$, 750

Thermal dehydration and decomposition

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Cu series). Part-I. Dehydration of $MnCl_2.4H_2O$, 644

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Co series). Part-III. Dehydration and decomposition of $CoCl_2$ hydrates, 842

Kinetics of thermal dehydration and decomposition of hydrated chlorides of some 3d transition metals (Mn-Cu series). Part-IV. Dehydration and decomposition of $NiCl_2.2H_2O$, 921

Thermal studies

Synthesis, crystal structure and thermal studies of catena-(L-glutamato)-aqua copper(II) monohydrate, 543

Thermodynamics

Interaction of metronidazole with amino and their thermodynamics, 22

Effect of sewage sludge on carbamate pesticides adsorption in soils of Aligarh district, 41

Kinetics of liquid-solid ion exchange reaction of calcium/hydrogen ions on cation exchange resin in non-aqueous media, 457

Thermodynamic parameter

Adsorption dynamics and the effect of temperature of fluoride at alumina-solution interface, 461

Excess thermodynamic parameters for the Pb-Sn alloy at various compositions, 962

Thermodynamic stability

The generalized setup of comprehensive thermodynamic theory of stability of irreversible processes (CTTSIP) and a few illustrative applications, 1119

Thermogravimetric analysis

A new complex combination of Bi^{III} utilized as a stationary phase in gas chromatography, 402

Thiazine

Biginelli reaction on 4-oxo-4*H*-1-benzopyran-3-carboxaldehyde – a search for reaction pathway, 132

Thiazolidinone

Synthesis and biological activity of some new 4-thiazolidinone derivatives, 506

Synthesis and biological screening of new 2-azetidinones and 4-thiazolidinones, 783

Thiazolylpyranoindoles

Synthesis and antimicrobial activity of new linearly fused 6-substituted-3,8-diacetyl-4,7-dimethyl-2*H*-pyrano[6,5-*f*]indoles, their chemoselective bromination and synthesis of 3-thiazolylpyranoindoles, 865

Thin layer chromatography

Chromatographic analysis of benzylidenemalononitrile analogues of 2-chlorobenzylidenemalononitrile, 874

Thioammelin

Synthetic, spectral and antibacterial studies of some novel first transition metal complexes of 4,6-diamino-1,3,5-triazine-2-thiol, 357

Thiochromanone

Nickel chloride catalyzed arylation of 3-mercapto-propionic acid : a facile one step route to 3-aryl mercaptopropionic acids from inactivated aryl halides and arenes, 515

Thiophenol

Base catalysed addition of thiophenol to β-nitrostyrene in aqueous acetonitrile – A kinetic study, 1157

Thiosemicarbazide

Synthesis and antimicrobial activity of bis(imido) Schiff bases derived from thiosemicarbazide with some 2-hydroxyaldehydes and metal complexes, 7

Thiosemicarbazone

Spectral and biological properties of unsymmetrical imine complexes of dioxomolybdenum(VI) with sulfadrug azomethines and thiosemicarbazone, 454

Thiourea

Synthesis and biological activity of some new 4-thiazolidinone derivatives, 506

DL-Threonine

Interaction between DL-threonine and ninhydrin in aqueous, aqueous-organic and micellar media, 1111

Tinidazole

Charge transfer complexes of metronidazole and tinidazole with quinones and thermodynamics, 221

Titania

Effect of ZrO_2 additive in reaction sintering of bauxite and titania, 528

Role of MgO additive in reaction sintering of bauxite and titania, 988

Titanium

Synthesis and characterization of titaniumnaphthoquinolates and their [4+2]-cycloadducts, 230

Tolyl thiosemicarbazone

Trace determination of nickel and cadmium(II) amperometrically using 4-*p*-tolyl thiosemicarbazide, 611

Topochemically arrived unique

QSPR with TAU indices : molar thermochemical properties of diverse functional acyclic compounds, 115

Trace determination

Trace determination of nickel and cadmium(II) amperometrically using 4-*p*-tolyl thiosemicarbazide, 611

Extractive spectrophotometric determination of tungsten(VI) using 3-hydroxy-2-(2′-furyl)-4-oxo-4*H*-1-benzopyran as a complexing agent, 713

Transfer parameters

Apparent molar volumes and adiabatic compressibilities of L-glycine in aqueous solutions of $(CH_3)_4NI$, NaBr and NaI at 298.15 K, 1019

Transition metals

Studies on formation constants of some transition metal complexes containing folic acid as a primary ligand and some amino acids as a secondary ligands, 65

Kinetics of thermal dehydration and decomposition of hydrated chlorides of 3d transition metals (Mn-Cu series). Part-II. Dehydration of $FeCl_2.4H_2O$, 750

Transition metal ions

Kinetics and reaction mechanism of the metal ion catalysed hydrolysis of some substituted salicylanils, 1103

Transition metal ion complexes

Synthesis and spectral studies of transition metal complexes 2,16-dimethyl-3,6,9,12,15,21-hexaazabicyclo[15.3.1]henicosa-1(21),2,15,17,19-pentaene, 833

Triazine

Synthetic, spectral and antibacterial studies of some novel frist transition metal complexes of 4,6-diamino-1,3,5-triazine-2-thiol, 357

Triazoles

Synthesis and biological activities of some 2-(substituted-phenyl)-2-methyl-4-(1,2,4-triazole-1-yl)methane-1,3-dioxolane derivatives, 974

Triazolinthiones

Aminomethylation reaction of nitrogen and sulfar five membered heterocyclic compounds, 627

Tributyl phosphate

Extraction of Fe^{III}, Sb^{III} and Cd^{II} from hydrochloric acid solution with organic extractant in methylisobutyl ketone, 942

Triethylamine (TEA)

Base catalysed addition of thiophenol to β-nitrostyrene in aqueous acetonitrile – A kinetic study, 1157

Trioctyl amine

Extraction of Fe^{III}, Sb^{III} and Cd^{II} from hydrochloric acid solution with organic extractant in methylisobutyl ketone, 942

Trioctyl phosphine

Extraction of Fe^{III}, Sb^{III} and Cd^{II} from hydrochloric acid solution with organic extractant in methylisobutyl ketone, 942

Triterpene

A new triterpene from *Salvia coccinea*, 82

Triton X-100

Micellar effect on protonation equilibria of L-arginine and L-histidine, 384

Trivalent metal complexes

Trivalent transition metal ion directed macrocycles, 287

Tungsten

Extractive spectrophotometric determination of tungsten(VI) using 3-hydroxy-2-(2′-furyl)-4-oxo-4*H*-1-benzopyran as a complexing agent, 713

L-Tyrosine

Oxidation of L-tyrosine by sodium *N*-bromobenzenesulfonamide in alkaline medium : a kinetic and mechanistic study, 479

Ultrasonic

Ultrasonic, volumetric and viscometric studies of ammonium ceric nitrate in aqueous solution at different temperatures, 246

Ultrasonic speed

Interaction studies in multicomponent liquid mixtures of hexadecane + 1-heptanol with dimethylformamide and tetrahydrofuran, 227

Ultrasonic velocity

Acoustical studies of some derivatives of ethylbenzene-1,3-diol in dimethylformamide solution at 308.15 K, 570

Unsaturated acids

Kinetics and mechanism of the oxidation of some unsaturated acids by pyridinium chlorochromate, 745

Uranyl ion

Sensitized photo-oxidation of osazone by uranyl ions, 707

Urea

Effect of dielectric constant of medium on protonation equilibria of L-glutamine and succinic acid, 424

Valence electron mobile

QSPR with TAU indices : molar thermochemical properties of diverse functional acyclic compounds, 115

Vanadium

Highly selective catalytic-spectrophotometric determination of vanadium(IV) by using calmagite-bromate redox reaction, 762

Vanillin

Spectrophotometric determination of ornidazol, 346

Vilsmeier reaction

Behaviour of *o*-hydroxyacetophenones towards action of $POCl_3$/DMF (Vilsmeier reagent) in presence of $BF_3.Et_2O$: a novel observation in the synthesis of chromones, 888

Viscometric studies

Viscometric studies of molecular interactions in binary liquid mixtures of nitromethane with some polar and non-polar solvents at 298.15 K, 850

Viscosity

Interaction studies in multicomponent liquid mixtures of hexadecane + 1-heptanol with dimethylformamide and tetrahydrofuran, 227

Ultrasonic, volumetric and viscometric studies of ammonium ceric nitrate in aqueous solution at different temperatures, 246

Thermodynamic and transport behavior of non-aqueous binary mixtrures of benzene with carbontetrachloride and chloroform at different temperature, 330

Excess molar volumes and viscosities of liquid mixtures of 1-propanol + ethylene glycol monomethyl ether, + diethylene glycol monomethyl ether, + triethylene glycol monomethyl ehter at (298.15, 308.15 and 318.15) K, 375

Vitamic C

Simultaneous HPLC determination of vitamin C and carboxylic acids, 721

Voltammetry

Electrochemical investigations and analysis of allethrin in formulations and in household dust, 613

Volumetric and viscometric properties

Volumetric and viscometric properties of urea and D-glucose in aqueous glycine at 308 K, 860

Vulcanization

Studies on the effects of cyclohexylbenzthiazylsulfenamide accelerated sulfar vulcanization of natural rubber. Part-I. Kinetics of vulcanization, 141

Studies on the effects of cyclohexylbenzthiazyl sulfenamide accelerated sulfar vulcanization of natural rubber. Part-II. Load-deformation characteristics, 413

Waterborne aminoacrylic coating

Effect of blend of the hydrosol and latex on the property of waterborne aminoacrylic coatings, 313

Wendlandia tinctoria

Chemical constituents of *Lasia spinosa*, *Mussaenda incana* and *Wendlandia tinctoria*, 73

Wheat variety

Solute diffusion in single germinating seed – experimental determination of diffusion coefficients of NaCl and $CaCl_2.2H_2O$ in PBW-373 wheat variety at 25° and 45°, 47

WO_3 sol

Preparation of photosensitive WO_3 sol, its use in photocatalysis, photogalvanic cell and feasibility of fuel cell at room temperature, 1163

X-Ray crystallography

Synthesis and crystal structure of bis(2-aminopyridinium) tetrachlorocuprate(II), 18

X-Ray photoelectron spectra

Synthesis of mercury-, tin-, lead- and zinc(II) complexes with a tetradentate Schiff base 1,2-glyoxilidine-bis-2-aminoethylpyridine, 590

Xanthone

New xanthone from the seeds of *Tectona grandis*, 167

Ytterbium triflate

Acylation of aromatic compounds with isocyanates catalyzed by ytterbium(III) triflate : environmentally friendly, 885

Zinc

Synthetic, spectral, thermal and antibacterial studies on copper(II) and zinc(II) complexes using NNO donor Schiff bases, 13

Synthesis and bioactivity of ternary mixed ligand complexes of copper(II) and zinc(II) with substituted pyrimidine, 501

Corrosion of aluminium, zinc and mild-steel in an industrial atmosphere, 680

Zinc-nickel alloy

Electrochemical formation and corrosion studies on zinc-nickel alloys, 1149

Zirconia

Development of zirconia porcelain in presence of active silica and its characterization, 531
